FINANCIAL AND COMMERCIAL.

Beause of the that there was no business whatever cemaniting from London or the European Inflamental control to-day a stock market was loved the control of the Control of Control of the Control of Control teemed with authoritative staetments of the volume of orders now pouring in upon the railway equipment companies and steel manufacturing companies of every sort for all kinds of iron and steel production, and there was therefore from the very outset of the market to-day a lively continuation of the upward movement which set in so briskly at the close of the week in the prominent railway equipment stocks, such as the shares of American Locomotive, American the American People at \$5,000,000,000, a Steel Foundries, American Car and Foundry and Pressed Steel Car companies The movement came to embrace the industrial list as a whole, and the United States Rubber, Central Leather, American Beet Sugar, Consolidated Gas. Pitts burg Coal, Distillers Securities and other similar stocks were definitely strong. No doubt special causes were at work

in many of these instances. Consolidated Gas is a stock in a class by itself and Wall Street sentiment is inclining at this time to the opinion that the 80 cent gas law is by no means proving a great disadvantage to the company's interests. Rumors regarding the affairs of the Pittsburg Coal Company run to the effect that a forward to the retirement of the com pany's preferred stock and the substitution for this of a debenture bond, which will also be offered in payment of back dividends on the preferred stock. But if the buying of the industrial stocks was the leading feature of the market to-day the railroad shares were by no means neglected, and a general upward impulse ran through the market as a whole. In the milroad list Atchinson common stock was easily the leader. Closing prices were somewhat irregular owing to a profit taking movement in the last half hour of business, which, however, was noticeable in this respect, that while these realizations were going on in two leading stocks such as Reading and Pennsylvania the accumulation of United States Steel common, Atchison common and other equally prominent issues was still in progress. Announcement was made to-day in terms that had been generally anticipated of the issue of \$80,000,000 of new Pennsylvania stock at par to stockholders of record which bear rights of about 9.3 per cent, on the quantity of the stock now in being. The issue is for refunding obliga-Newark Passenger Ry. Co. 5's tions and involves no addition to the Pennsylvania's capitalization. The September earnings of the Pennsylvania as made known during the day exhibited for all lines an increase of \$5,000,000, and of \$1,900,000 in net. Other highly satisfactory statements were made by the Missouri.

The copper shares were again in good demand to-day and higher prices were made in the leading Issues, but the market as a whole, though maintaining a firm tone, was less scrive than on the closing days of last week. Butte Coalition, Nevada Consolidated, Greene-Cananea, Cumberland-Ely and First National were all strong. A slightly better market for the cobalt stocks was also witnessed. There were large dealings in the Pennsylvania "rights," which opened at 9, fell to 7½ in the first few transactions and then rose to 9½, closing near the higher figure. Standard Oil improved a couple of points. Bonds were quiet. Transactions in detail in the market to-day were as follows:

THE BOSTON MARKET.

Boston, Nov. 1.—The market for copper shares here was somewhat irregular to-day. Greene-Cananea was the feature in point of activity, over 5,000 shares changing hands. Giroux, Helvetia, Nevada Consolidated, North Butte and North Lake were moderately active. Closing prices as a rule were a shade lower than those of Saturday.

THE CHICAGO MARKET.

CHICAGO, Nov. 1.—United Boxboard was the outstanding feature of to-day's local securities market, gaining two points on transactions of 4,000 shares. Other issues were steady. The summary:

PHILADELPHIA QUOTATIONS.

MISCELLANEOUS MARKETS. Coffee Active and Higher-Prevision

Coffee continued to advance. The cable were strong and local and outside interests were good buyers. There was also some buying attributed to Europe. A cable from Hamburg said that the growing Santos crop was estimated at 7,500,000 bags. Som bought on that. The strength and ac tivity at the Cotton Exchange also exerted sentimental influence on coffee.
